

James Songcayawon

experience

Factor Design, Inc.

Designer, July 2007–January 2009

Created and developed design directions and imagery for a variety of clients, including: Google, the San Francisco Film Society, Function Engineering, Apple, HP, and Plantronics.

Designed front-end website interfaces and illustrations for Solaria, the Involvement Practice, and OneShare.

Helped to create a uniform system of internal documents and client presentations.

City & County of San Francisco

Graphic Designer, March 2005–July 2007

Responsible for the design and production of a variety of print collateral materials for the majority of San Francisco's departments and agencies, from the Mayor's Office of Protocol to Parks and Recreation. Handled all aspects of project process, from initial client interaction to working with print vendors.

Developed front-end design solutions for the Health Service System and the Treasure Island Development Authority websites.

Cavallini Papers & Co.

Design Assistant, June 2003–June 2004

Working closely with the lead graphic designer, created and launched new stationery products, including notebooks and gift labels.

Developed and created internal company collateral materials: order forms, business cards, and promotional materials.

Designed and produced the company website.

KTEH Public Television

Intern, June 2002–January 2003

Assisted producers in television studio duties, including camera operation for live in-studio recording, location shoots for the *Video i* and *Real Science* programs, voiceover production, and studio lighting preparation.

AdamsMorioka

Intern / Jr. Designer, June 1998–June 2000

As Junior Designer, worked on the design and layout of the Rizzoli-published book, *On Cukor* as well as web design for the startup company, UrbanGoods.

As an intern, assisted with design research, photography, and presentation preparation.

Freelance Projects

July 2007–Present

Informational brochure design and production for The Presidio Trust and Nature in the City

T-shirt design for San Francisco Recreation and Parks

Website and brochure design for The Bay Institute
